

ROBOTICS SUMMER CAMP

for rising 8th and 9th graders

Explore your future in STEM!

Join Central Catholic's robotics team for three days of hands-on activities and teamwork. Learn the basic skills needed to be an effective robotics team member: how to design, prototype, and build a fully functional robot. Foster critical thinking and innovation skills.

July 15-17
9 am-12 pm

20 slots total
\$100 per student
